Reviews

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.

Excerpt: . . . and to correct his predecessors, falls into twenty-six. I acknowledge my own errors, with deep humility; and I owe the public a duty to show what these twenty-six portentous mistakes are, and how they ought to be corrected from Mr. Halliwell's transcripts, founded upon his knowledge of palaeography, which he describes as a science essentially necessary in the investigation of contracted records of the sixteenth century, especially of those written in Latin. But Mr. Halliwell is too indulgent to me. I have exceeded the number of Malones errors by two. Of course I assume that in reading these mouldy and blurred records Mr. Halliwell is infallible in the matters of *gs* and *it*. In his case no one can believe in the possibility of a doubt. MR.
