Date :2007-09-01 version 1. The book written by ordinary higher education Eleventh Five-Year national planning materials sensor and detection technology (Science Press. Yu-Chih root) as the basis. the main material in the sensor according to the order. designed a total of 21 training projects. of which 7 to verify the nature of training. other arrangements of 14 independent design of training. rejection to test learners flexible use of theoretical knowledge. so that they can give full play to their initiative and enthusiasm. In the end of each training some thinking questions are designed to further consolidate the theoretical knowledge. broaden their knowledge. to better achieve the purpose of practical training. Book for three-year vocational college application of electronic technology. industrial automation. electrical and mechanical integration with a variety of industrial process control engineering specialty relevant. also be used as reference materials related to professional. Contents: Chapter 1 resistance strain gauge of the performance tests in Chapter 2 of the application of resistance strain gauge - prototype electronic weighing devices Chapter 3 thermistor - temperature controller. gas production in Chapter 4 the application of resistance - - alcohol detector in Chapter 5 the application of photosensitive resistance - the production of anti-theft alarm humidity resistance of Chapter 6 of the application - the production of humidity controller. Chapter 7. diffused silicon piezoresistive sensor performance tests in Chapter 8 Differential variable area capacitive sensor performance testing Chapter 9 differential variable area capacitive sensor applications - amplitude measurement device design Chapter 10 of differential transformer type inductive sensor performance tests in Chapter 11 of differential transformer type inductive sensor applications - vibration measurement device design Chapter...
