RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 120 pages. LC Number: KF27 . H57 2008i OCLC Number: (OCoLC)297178192 Subject: Ports of entry -- Security measures -- United States. Excerpt: . . . 11 Also, under the auspices of WHTI, new facilitative technology will be implemented to assist in the efficient flow of legitimate travel. CBP is in the process of awarding a contract for the installation of infrastructure and technology required to read travel documents in vehicle primary lanes at land borders at the 39 highest-volume ports, which combined process 95 percent of travelers entering the United States through our land borders. This technology provides significant advantages for our officers, while providing a clear benefit for the traveler: The document is read as the vehicle queues for inspection at the primary booth. In seconds, the system displays the travelers bio-graphic information, photo, and the results of checks against the terrorist watch list, National Crime Information Center (NCIC) database, and various law enforcement databases to the CBP officers. This enables CBP to enforce more than 400 laws from 40 different Federal agencies, without impeding traffic flow. The CBP officer can look at the results quickly and focus on the individuals in the vehicle - better for officer safety and faster, more effective processing. CBP has used facilitative technology successfully in operations along our land border with Canada and Mexico since 1995. Through our Trusted Traveler Programs, such as NEXUS, SENTRI and FAST, CBP officers are able to expedite legitimate cross-border travel and trade. Membership in these programs currently exceeds 385, 000. Our Trusted Traveler Program, SENTRI, has been very successful in El Paso where we have nearly 23, 000 people participating in SENTRI, and the Stanton Street crossing is designated a SENTRI-only crossing. Inspectional...
