Comparison between It-clefts and WH-Clefts: Similarities and Differences

By Gabriela Bara

GRIN Verlag Mrz 2010, 2010. sonst. Bücher. Book Condition: Neu. 219x151x1 mm. This item is printed on demand - Print on Demand Neuware - Seminar paper from the year 2005 in the subject English Language and Literature Studies - Linguistics, printed single-sided, grade: 1,7, Technical University of Braunschweig (Englisches Seminar), course: Introduction to Information Structure, language: English, abstract: From language to language, there are different alternatives in which a speaker can structure information. Information structure deals with the highlighting of pieces of information in sentences. Even though there are a variety of ways in which the same basic informational content can be conveyed, the preference for a particular way reveals how the speaker's semantic representation is transposed into syntactical data. Moreover, the speaker's choice for structuring information into a particular linguistic form shows the coherent way in which utterances are connected in sequences, revealing thus the importance of discourse. There are several syntactic devices that are able to encode the pragmatic information of a preferred alternative. One type of such devices used to mark information structure is cleft constructions. There are two major types of clefts: it-clefts and WH-clefts, also called pseudo-clefts. There has been claimed in the literature for...
